## WORK EXPERIENCE

### Si-eCommerce

*Katowice, Poland*

09.2015 – current

### Hybris Developer / Senior Java Developer

Together with overseas teams we are working on an e-commerce platform for a telecommunications operator. I also created internal software for rapid porting of product catalogs from existing websites into Hybris. I worked on pre-sales presentations for potential clients by implementing simple commerce systems based on Hybris accelerators.

Java 8

Groovy

Spring 4

MySQL

Git

Hybris 5.x

Oracle Express

### Gociety, Inc.

*Denver, CO, U.S.*

*(remote)*

04.2014 – 09.2015

### Software Developer / Team Leader

The project that I was working on was separated from the last company and a new team was formed. I had a team of five people and we were responsible for adding new functionality to the site. I wrote new code, fixed bugs, and coordinated the development process. For some time, I was also managing the project's cloud deployment.

Java 7

Groovy & Grails

MongoDB

MySQL

jQuery

Amazon EC2

Git

Spring 3

### Learnplace.pl Ltd.

*Katowice, Poland*

02.2013 – 03.2014

### Full Stack Developer / Team Leader

I was the leader of a group consisting of four developers. We were responsible for developing a social networking site for people interested in various outdoor activities. My duties included team management and full stack programming. Second project was a statistics dashboard for sales managers, but I was only temporarily involved in it – I was helping with bug fixing.

Java 7

MongoDB

MySQL

jQuery

Git

Bootstrap

PHP 5

---

**Web Scribble Solutions Inc.**  
*Troy, NY, U.S. (remote)*  
05.2012 – 12.2012

**PHP Developer**

I was expanding the company's job board software with new functionalities and fixing bugs. Most of the work I did was related to back-end development, but occasionally, I worked on front-end as well.

PHP 5

MySQL

jQuery

---

**ProIntegra**  
*Katowice, Poland*  
06.2011 – 05.2012

**Junior Software Developer / Quality Assurance**

I helped during the development of an intranet portal for a major bank in Poland by writing small utility software. I also helped with manual tests of the portal.

C#

VBA

---

EDUCATION

---

**Zespół Szkół Elektronicznych i Informatycznych**  
*Sosnowiec, Poland*  
2009 – 2013

Technical college

**Major:** IT Technician

**Specialization:** Repair and maintenance of computer hardware

---

PROJECTS

---

**Orange Poland**  
10.2016

Small Hybris submodule responsible for displaying services' availability and collecting marketing information from clients. I made minor SOLR index changes, and I also did a couple of front-end tasks.

---

**Vodafone Hungary**  
01.2016 - current

Hybris-based implementation of a web shop for Vodafone Hungary. I made heavy Backoffice customizations (custom widgets, access rights management, and ticket system), several front-end related changes (adapting the Telco accelerator to client's wireframes), and other back-end modifications (for example, bulk data loading from an Excel file).

---

**Gociety**  
04.2014 – 09.2015

Social networking site for people who like outdoor activities (camping, hiking, etc.)

---

MISCELLANEOUS

**Technical skills**
